Frontend: Angular, React, Next.js, Vue.js, Vuex, React Router, PrimeNG, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, Python Flask, REST APIs, JWT, authentication and authorization

Databases and ORM: Microsoft SQL Server, PostgreSQL, MySQL, Firebase, Prisma, Sequelize

Cloud and DevOps: Docker, Microsoft IIS, Google Cloud Platform, Firebase, Vercel, SFTP

Tools and Practices: Git, GitHub, Postman, VS Code, npm, Yarn, system design, clean code, Agile

PROFESSIONAL EXPERIENCE

Full Stack Web Developer | Wish Sukses Digital

December 2023 - Present

- Develop and maintain internal business applications using Next.js, Express.js, and MySQL.
- Design scalable REST APIs that support frontend applications and business workflows.
- Implement secure authentication and authorization for protected application features.
- Integrate SFTP services to automate recurring operational workflows and data transfers.
- Translate stakeholder requirements into production-ready features using modular, reusable code.

Full Stack Web Developer | Asahimas Flat Glass

April 2023 - March 2024

- Independently delivered three internal web applications used across company departments.
- Engineered a Purchase Request System with complex multi-level approval workflows.
- Built a Contact Management System connecting multiple company branches and a Library Management Tool that improved document discovery.
- Developed Angular and PrimeNG frontends with Python Flask services and Microsoft SQL Server databases.
- Deployed and maintained applications on internal Microsoft IIS infrastructure while iterating directly with users.

PROFESSIONAL EXPERIENCE - CONTINUED

Freelance Frontend Developer | Indosafety Marine

December 2023 - January 2024

- Developed an equipment management web application using Vue.js, Vuex, and Firebase.
- Implemented maintainable frontend features and improved usability across operational workflows.
- Delivered the project according to agreed client requirements and timeline.

Freelance Full Stack Developer | Kikiaka.id

April 2021 - December 2022

- Collaborated with a development team to deliver production websites including belajarrenang.id, kamilaapremium.id, and adrevi.id.
- Developed frontend and backend features, reusable UI components, REST APIs, and database integrations.
- Worked closely with designers and engineers to translate designs and requirements into maintainable web experiences.

SELECTED PROJECTS
